Miami Beach's [Washington Park Hotel](#), which softly opened last year, officially celebrated its grand opening with the launch of its staple bar and restaurant Employees Only, which also has locations in New York City and Singapore.

The hotel was designed by [Big Time Design Studios](#) and the guest rooms are spread across four buildings, featuring a modern gray and wood color scheme with tropical splashes of color.

Managed by Highgate, the property also has a fitness center and retro arcade games like Pac-Man and Donkey Kong in addition to life-size Jenga and bocce ball in the courtyard.
